

## ScottMadden Explores Energy Industry Cybersecurity Progress in Exclusive Report

### *Energy Industry Cybersecurity Report*

**ATLANTA, GA – (July 23, 2015)** – ScottMadden, Inc., one of North America’s leading energy consulting firms, has released a report on cybersecurity within the energy sector. This new report helps utilities understand how their cybersecurity practices and perceptions compare to those of industry peers. It is a resource for utility executives evaluating their cybersecurity capabilities. For a copy of this report, please click [here](#).

“Due to information sharing concerns, energy industry cybersecurity information is not readily available. However, understanding what your industry peers are doing to respond to a growing cyber threat is required to make the best possible decisions,” said [Jon Kerner](#), partner and information technology practice leader at ScottMadden. “ScottMadden is committed to serving the energy community by providing timely cybersecurity information.”

Results from a survey on industry adoption of the National Institute of Standards and Technology (NIST) Cybersecurity Framework will be released later this year.

### **About ScottMadden’s Energy Practice**

We know energy from the ground up. Since 1983, we have been energy consultants. We have served more than 300 clients, including 20 of the top 20 energy utilities. We have performed more than 2,400 projects across every energy utility business unit and every function. We have helped our clients develop strategies, improve operations, reorganize companies, and implement initiatives. Our broad and deep energy utility expertise is not theoretical—it is experience based.

### **About ScottMadden’s Corporate & Shared Services Practice**

ScottMadden has been a pioneer in corporate and shared services since the practice began decades ago. Our Corporate & Shared Services practice has completed more than 1,100 projects since the early 90s, including hundreds of large, multi-year implementations. Our clients span a variety of industries from entertainment to energy to high tech. Examples of our projects include business case development, shared services design, and shared services build support and implementation.

### **About ScottMadden, Inc.**

ScottMadden is the management consulting firm that does what it takes to get it done right. Our practice areas include Energy, Clean Tech & Sustainability, and Corporate & Shared Services. We deliver a broad array of consulting services ranging from strategic planning through implementation across many industries, business units, and functions.
