

ScottMadden Energy Industry Update Explores Energy Infrastructure Growth in Mexico

ATLANTA, GA – (December 7, 2016) – ScottMadden, Inc., one of North America’s leading energy consulting firms, recently released its Fall [Energy Industry Update](#). For more than a decade and a half, the ScottMadden Energy Industry Update has served as the catalyst for strategic discussion, debate, and decisions. More than 10,000 executive leaders rely on it for thought-provoking insights on the energy utility industry’s most important trends. This highly anticipated semi-annual report will give you bottom-line insights, distill recent events, and help you as you prepare to anticipate and respond to emerging trends.

Themed “**As Yogi Berra Might Say...**,” this issue focuses on strategic drivers that are propelling our industry. The Mexican government seeks to improve energy sector performance by attracting private sector capital, ownership, and operators. ScottMadden’s [report](#) provides perspective on these important issues surrounding Mexican energy reform:

- How does Mexico hope to get more out of its energy sector, including improved environmental attributes?
- What are the key elements of Mexican energy reform, and what are their expected timing?
- What will the future electricity market in Mexico look like?
- How will this energy reform affect U.S.-Mexico natural gas trade?

“Mexico has ambitious goals of improving efficiency and energy access in multiple energy sectors—power, gas, and oil—shifting from dominance by state-sponsored enterprises to increased private sector participation,” said [Greg Litra](#), partner and energy research lead at ScottMadden. “Needed investment will come as new ‘rules of the road’ are established, and it will also depend upon the outlook for global oil and gas markets. For now, investors will watch to see how structural reforms unfold.”
