

ScottMadden Joins the American Nuclear Society to Explore How Nuclear is Rising to Meet Industry Challenges

ATLANTA, GA – (August 31, 2018) – ScottMadden, Inc., one of North America’s leading management consulting firms specializing in energy, recently joined industry leaders as a golf sponsor and attendee at the American Nuclear Society (ANS) Utility Working Conference and Vendor Technology Expo. This annual meeting analyzed cost drivers common to all nuclear power plants, recommended programs and processes to improve their efficiency and effectiveness, and provided innovative solutions that enable a significant reduction in operating expenses.

Ed Baker and Sean Lawrie, partners at ScottMadden, and Ryan Smith and Frank Nelms, managers at ScottMadden, attended the event and came away with noteworthy insights. “The nuclear industry continues to be collaborative at sharing best operating practices to ensure safe, reliable, and emission-free generation will be a part of the generation mix for the future,” Mr. Baker explains. “We are proud to be a valued member of the nuclear industry and contribute leading practice solutions that help the industry face these uncertain times,” adds Mr. Lawrie.

About ScottMadden’s Energy Practice

We know energy from the ground up. Since 1983, we have been energy consultants. We have served more than 400 clients, including 20 of the top 20 energy utilities. We have performed more than 3,000 projects across every energy utility business unit and every function. We have helped our clients develop strategies, improve operations, reorganize companies, and implement initiatives. Our broad and deep energy utility expertise is not theoretical—it is experience based.
