

ScottMadden Announces Promotion of Luke Martin to Partner

ATLANTA, GA – (May 14, 2019) – ScottMadden, Inc., one of North America’s leading management consulting firms specializing in energy, is pleased to announce the promotion of [Luke Martin](#) to partner.

Luke Martin is a leader in ScottMadden’s energy practice. Luke joined the firm in 2005 and has more than 13 years of management consulting experience focused on energy, utility, and clean tech clients. During his time at ScottMadden, Luke has worked on a variety of key issues for utilities, including cybersecurity, organizational transformation, and program implementation.

Mr. Martin has deep consulting experience with Operational Technology (OT) Security, NERC CIP, operations improvement, program recovery, and digital transformation. Recently, Luke’s focus has been on OT cybersecurity, where he has led complex program implementations and helped connect the dots between operational business units and IT cybersecurity organizations.

“Luke serves as an example of the incredible talent we have at the firm. Wherever he goes as a consultant, and now as a partner, he skillfully bridges the gap between technical and business expertise, which keeps him in high demand,” said [Brad Kitchens](#), president and CEO of ScottMadden.

Prior to ScottMadden, Luke worked for GE Consumer & Industrial in its electrical distribution division as part of the commercial leadership development program. He holds an M.B.A. from Duke University’s Fuqua School of Business Cross-Continent Program, with an emphasis on energy and the environment, and dual B.S. in computer engineering and electrical engineering from North Carolina State University.
