

## ScottMadden Named as Top Ranked Firm by Vault

*Vault's Top 50 Consulting Rankings for 2016*

**ATLANTA, GA – (September 3, 2015)** – ScottMadden, Inc., is ranked 22<sup>nd</sup> among the top 50 best consulting firms and one of the top 20 best consulting firms for energy consulting by Vault.com, a career website that ranks the top 50 consulting firms annually. Rankings are compiled from a broad survey of consultants who are asked to rank their own firm, peers, and competitors. This ranking combines a firm's overall prestige score with several factors, such as job satisfaction, culture, training, promotions, diversity, and pay.

This year's rankings highlight the best firms to work for in the industry, as well as the top firms across various quality of life categories, practice areas, and diversity. This year ScottMadden ranked third for firm culture, fifth for firm leadership, and fifth for best consulting firms for military veterans.

The Boutique Consulting Firm ranking, now in its second year, provides insight into life at a smaller firm—a better work-life balance and quality of life. Each of the firms are generally considered specialists in their practice areas and all had fewer than 750 employees at the time of publication. This year ScottMadden ranked seventh among the best boutique consulting firms.

“The Vault survey certainly confirms what I feel about ScottMadden,” says Brad Kitchens, president and CEO at ScottMadden. “From somebody who has been in the management consulting industry for more than 25 years, to see us score in the top 10 nationally in culture, diversity, military veterans, and compensation, I couldn't be more proud.”

According to Vault, “ScottMadden is growing quickly in a field—energy—that underpins the future of the entire economy. As such, any commentary on its future prospects seems almost unnecessary: for as long as there's demand for energy, there will be a market for ScottMadden's expertise. In addition, further growth is supported by a continued need for the firm's corporate and shared services work that spans industries and increasing interest in the areas of clean tech and sustainability. And, with growing recognition of the firm's abilities, there's little reason to doubt that it will continue to grow and thrive in the years ahead. As an employer, that makes ScottMadden an attractive proposition—as does the fact that existing employees seem to be satisfied with life at the firm. Insiders cite a small-firm feel and friendly culture as major plus points, but stress that the firm is a place where only the self-motivated will thrive; there's no hiding place in an outfit where every colleague from the CEO on down knows your name!”
