

ScottMadden to Discuss the Dynamic Grid of the Future at the NY REV Summit

ATLANTA, GA – (July 22, 2015) – ScottMadden, Inc., one of North America’s leading energy consulting firms, is proud to sponsor and moderate a panel at Infocast’s NY REV Summit being held July 29–30, 2015, at the New York Marriott Downtown in New York, NY. This event provides a unique opportunity to hear the latest updates on the REV initiative, its impact on the energy industry in New York, and the future of utilities throughout the United States.

The panel, “Dynamic Grid of the Future,” will examine how utilities and jurisdictions can learn from what NY REV is trying to achieve and the impacts it may have as other states contemplate the future of the grid. Panelists will include: Sini Jacob of Direct Energy; Bill Kallock of Integral Analytics; Gregg Rotenberg of Smart Wires; and Maria Seidler of Dominion Resources. Cristin Lyons, partner and transmission, distribution, and Smart Grid practice leader at ScottMadden, will serve as moderator.

“I look forward to a candid dialogue among our panelists,” said Ms. Lyons. “Utilities, regulators, and myriad other stakeholders have a vested interest in creating a robust, flexible, and efficient ‘grid of the future’. This panel will discuss the progress that New York is making and lessons that can be gleaned from the early movers.”

About ScottMadden’s Energy Practice

We know energy from the ground up. Since 1983, we have been energy consultants. We have served more than 300 clients, including 20 of the top 20 energy utilities. We have performed more than 2,400 projects across every energy utility business unit and every function. We have helped our clients develop strategies, improve operations, reorganize companies, and implement initiatives. Our broad and deep energy utility expertise is not theoretical—it is experience based.

About ScottMadden, Inc.

ScottMadden is the management consulting firm that does what it takes to get it done right. Our practice areas include Energy, Clean Tech & Sustainability, and Corporate & Shared Services.
